

OPERATIONALIZING NEW YORK'S RURAL HEALTH TRANSFORMATION

Bridging the Gap Between Policy & Sustainable Patient Outcomes

New York is at a crossroads. With **47 of 62** counties classified as rural, the state is deploying massive strategic investment to reverse a workforce crisis and stabilize a fragile safety net. At Intrepid Ascent, we don't just advise on strategy; we provide the technical and programmatic architecture to turn state funding into long-term financial solvency.

We understand the nuances of the NY RHTP framework. Whether you are an anchor hospital seeking Regional Health Network integration or a primary care practice pursuing PCMH recognition, we provide the execution roadmap.

We Help Organizations

**DELIVER
MEASURABLE
IMPACT**

WIN FUNDING

**EXECUTE
TRANSFORMATION**

CORE CAPABILITIES

INTEGRATED NETWORK GOVERNANCE

Coalition Building:

- Design accountability structures for rural safety net hospitals & community partners

School-Based Health:

- Implementation support for SBHC expansion to close pediatric care gaps

TECHNOLOGY-ENHANCED PRIMARY CARE

PCMH Acceleration:

- Guiding practices through NCQA recognition to unlock enhanced PMPM Medicaid payments (up to \$10/member)

AI-Enabled Workflows:

- Deploying vendor-neutral AI to automate gap identification & 24/7 triage

WORKFORCE CONTINUITY - "RURAL ROOTS"

Recruitment-to-Service Pipelines:

- Designing the 5-10% revenue-contribution models that create self-sustaining training funds

EMS Remote Learning:

- Building regional hubs for synchronous, real-time training for rural first responders

RESILIENCE & CYBERSECURITY

NY-Specific Compliance:

- Meeting the October 2024 cybersecurity requirements for hospitals (Section 405.46)

eConsult & Remote Monitoring:

- Integrating virtual specialty consults into the SHIN-NY exchange to reduce unnecessary travel
